## PM-1050 Universal Mobile Base

### What's the easiest way to make the most of a small workshop?

Making your machines mobile with the PM-1050 Versatile Mobile Base from BORA<sup>®</sup> Tool.

When you have a crowded or small shop, it's critical to keep your tools and machines mobile so you can make the most of your space. The PM-1050 Mobile Base makes it easy to maneuver your smaller machines around so you can easily access what you need when you need it. From jointers and drill presses to router tables and band saws, this is the ideal mobile base to help you keep your shop open and organized.

- Universal mobile base for machines and equipment
- Adjustable in 1" (2.54 cm) increments to fit a wide variety of machines
- Adjusts from 12x12 inch to 26x26 inch square (30x30 to 66x66 cm)
- Adjusts up to 16x36 inch (43x122 cm) rectangle
- Very low profile — increases machine height by less than 1 inch
- Locking steel foot levers allow you to instantly go from stationary to mobile
- Non-skid feet keep your machine parked where you want it
- 3" (7.6 cm) hard rubber wheels for easy gliding
- 400-lb. (181 kg) weight capacity
